

The best thing about getting your makeup done by Nav Brar is she customises a look that suits you the best. This means different brides get different makeup looks that highlight their unique features in the best way possible.

Nav Brar has even gone further to launch her own makeup academy and studio called Nav Brar Studios and Makeup Academy in the heart of Chandigarh in 2019. The idea behind this academy came to Nav Brar when she was working in Punjab and realized there wasn't any institution to teach youngsters more about makeup. So her makeup academy comes as a boon and blessing for most people in the state looking to become makeup artists in their profession.

The makeup academy offers short one-month courses where aspirants are divided into smaller groups to ensure every student gets the attention they truly need and deserve.

Many students pass out from the academy each year with hands-on experience from experts who have mastered the art of makeup. Every student in the Nav Brar Studios and Makeup Academy gets individual guidance and supervision to help create an efficacious career as a makeup artist. The academy helps students with everything from much-needed marketing and social media amplification to spreading the word around and expanding their business with time and effort.
